

TRUST THE EXPERTS

NOVEXX Solutions hardware, consumables, software, and service for best results

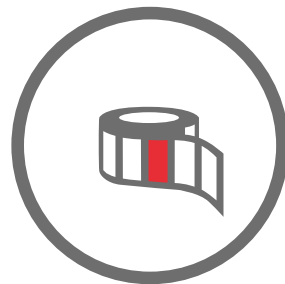

Easy integration

The experts from NOVEXX Solutions support you in the integration process and beyond. High-performance hardware is one thing, no less important is the smooth integration into your production environment. We take time to understand your processes and needs in order to be able to offer your company the optimal solution.

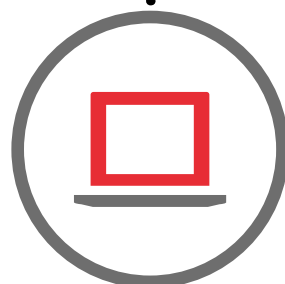

Durable hardware solutions

As a manufacturer, NOVEXX Solutions offers you a broad portfolio of hardware solutions for your labeling needs, such as Print & Apply systems, Labelers, Label Printers, and Pallet Labeling Systems – developed and manufactured in Germany. Trust in the many years of experience of NOVEXX Solutions – Your Partner for Labeling Solutions.

High-quality consumables

For over 50 years, we have been producing labels at our site in Eching, Germany. Blank labels for variable print data, labels with security features, your logo, or full color labels with your individual design – we supply quality labels tailored to your requirements. For print applications, we also offer a huge range of thermal transfer ribbons for our own hardware as well as from other manufacturers to meet your application needs and achieve perfect print results.

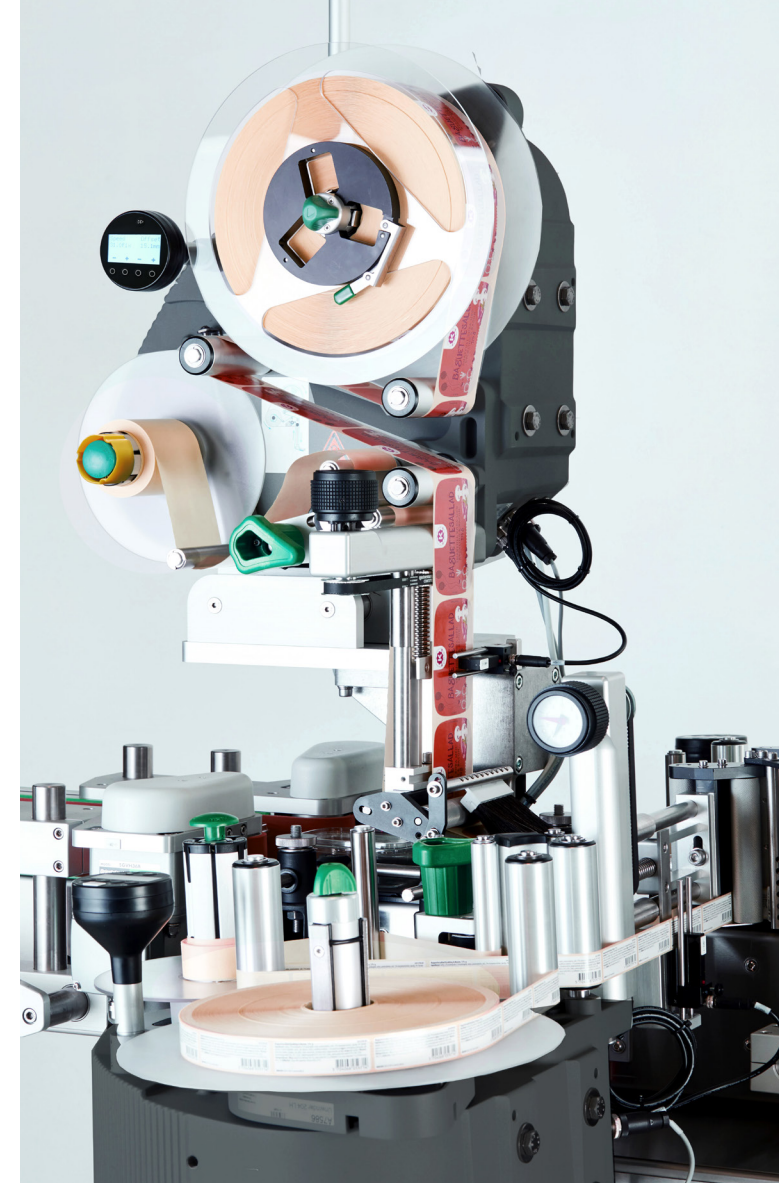

Data management software TRACE-it®

TRACE-it, the fully integrated software solution for central data and process management, completes the NOVEXX Solutions portfolio. It optimizes marking processes in manufacturing and logistics companies across many different industries – whether it be the marking of single products, packages, or entire pallets.

XLA - THE CONFIGURABLE LABELING SOLUTION

With the configurable XLA, you get an individual, compact solution that can label a wide range of products, surfaces and positions in just one process step.

APPLICATIONS TAILORED TO YOUR PRODUCT NEEDS.

The XLA allows to apply **multiple labels** with different shapes and sizes on a product in just **one step**. Thanks to its **individual and numerous configurations**, the XLA can easily be adapted to any labeling requirement.

This makes the XLA particularly adaptable and suitable for almost all **labeling requirements** and is a true all-rounder for products from any industry:

- hygiene products
- household goods
- electronics
- shipping units
- cosmetic products
- food and beverages
- chemical products
- ...and more

COMPACT. INDIVIDUAL. USER-FRIENDLY.

- Individually assembled solution thanks to **modular configuration**
- Can be used both **in-line** and **stand-alone**
- **Easy integration** into **existing** and **new production lines**
- Highly **user-friendly** thanks to **intuitive user interface**
- Quick and easy adjustment through **manual setting options**

NOVEXX
SOLUTIONS

THE COMPLETE SOLUTION FOR A WIDE RANGE OF LABELING REQUIREMENTS

Thanks to the **variation of configurations** and **assembly options**, the XLA can label products on many different positions - regardless of the **size and shape of the label**.

APPLICATION OPTIONS

With the XLA, both **decorative** and **informative** labels can be applied to the product, **pre-printed** or containing **variable information**. This ensures that all necessary product labeling requirements are fulfilled.

Like this, primary products such as cans, boxes, jars, bottles or canisters of a any material can be labeled within a very short time - regardless of the label positions.

Positions:

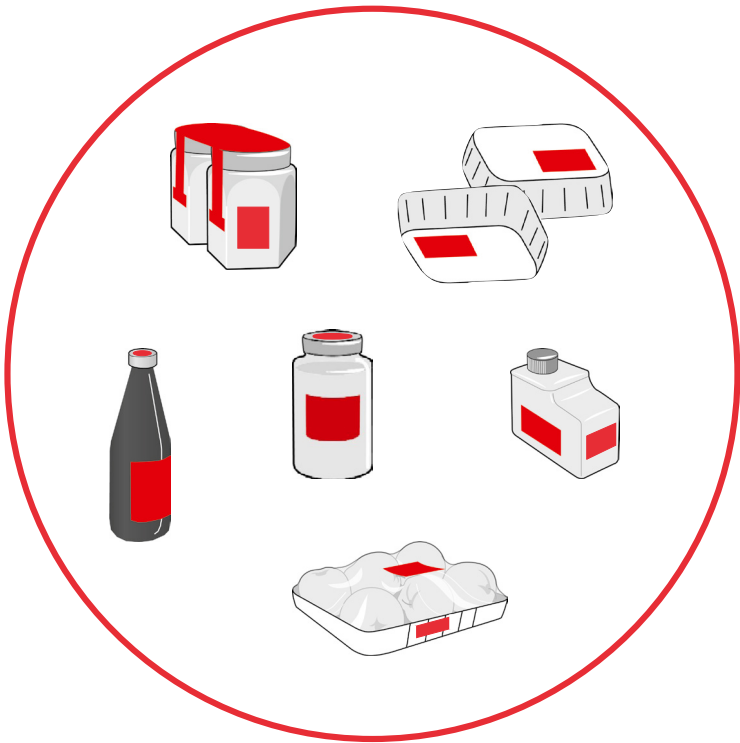

- Top
- Down
- Side
- Back and Front
- Wrap around
- Sealings

Product shapes:

- Flat
- Cylindric
- Triangular
- Square
- Hexagon

Type of labels:

- Different shapes
- Paper, plastic
- Self-adhesive
- Label width 10-229 mm

BENEFITS

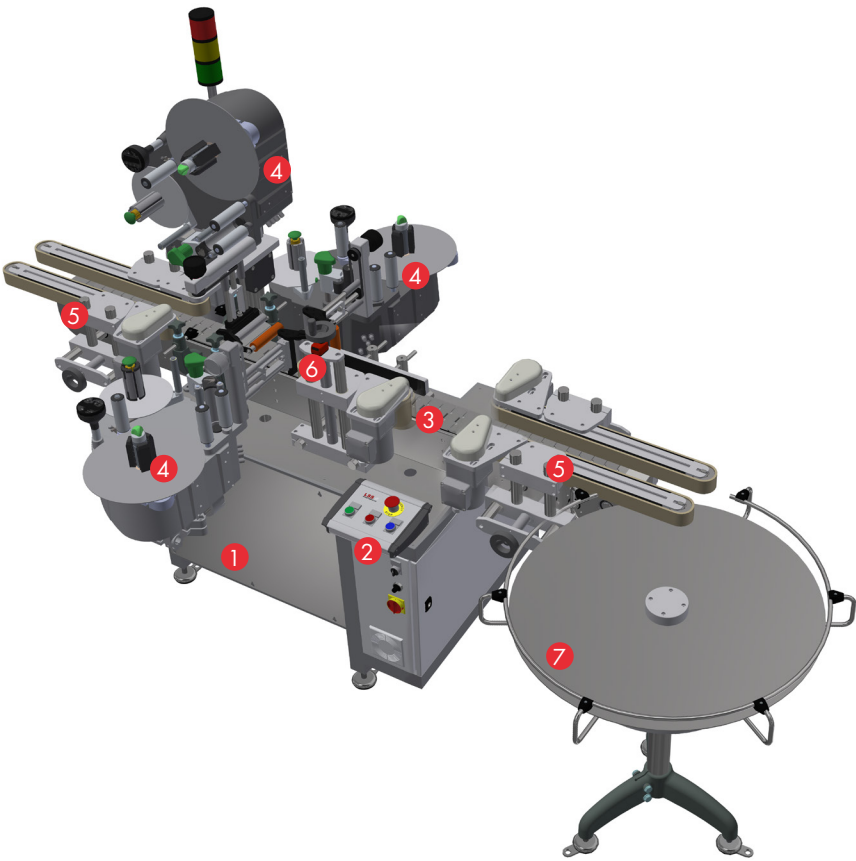

- Space-saving design**
Due to its compact size, the XLA can be easily integrated into existing production lines.
- High productivity**
Reliable and versatile application of multiple labels in a single process step.
- Precise dispensing accuracy**
Like all our products, the XLA provides high quality and dispensing accuracy.

INDIVIDUAL CONFIGURATION OPTIONS THANKS TO MODULAR DESIGN

The space-saving compact solution increases your productivity. Thanks to its modular design the configuration variety allows to mount up to 3 Labeling and/or Print & Apply Systems.

CONFIGURATION OPTIONS

Modul	Standard	Optional
1 Machine frame	2000 x 1120 x 1900 mm (L*D*H)	Application-dependent
2 Machine controle	Main switch Start/Stop/Reset/Emergency stop/ Labeling machine(s) On/Off	Signal lamp
3 Conveyor	Dimension: 100 x 2000 mm Fixed or variable speed	Fixed or variable speed
4 Labeling & Print and Apply Systems	XLS 2xx Labeler, ALX and XPA Print and Apply Systems	XLS 204, 206, 209, 256, 272/ ALS 306,309 ALX 73x, 92x XPA 934
	Multiple apply options	Options: Top/Side, bottom, wrap around sealing
5 Infeed and outfeed conveyor	Width: 45 mm oder 90 mm Length: 300 mm oder 450 mm	Fixed or variable speed
6 Wrap around conveyor	Width: 45 mm oder 90 mm Length: 300 mm oder 450 mm	Fixed or variable speed
7 Round table	-	Optional features
